

# WHISPERING WINDS CATHOLIC CAMP AND CONFERENCE CENTER

## COVID-19 Safety Precautions

### WE'RE COMMITTED TO SERVING YOU!

Whispering Winds is committed to the health, safety and well being of our guests and staff. We will stay committed to the recommendations of the CDC and local health guidance to ensure our policies align with their strategies to provide you excellent care!

#### What we are doing to ensure excellence:

- Increased hand sanitizing stations throughout camp. This includes stations in all meeting spaces, welcome center, cedar house and the dining hall.
- Added bottles of sanitizer with guest accessibility throughout camp.
- Increased frequency of disinfecting all touch surfaces throughout camp.
- Increased routine sanitizing of all recreation equipment.
- Staff will ensure all ACA, CDC, local and state standards and precautions are maintained.
- Post signage to promote good hygiene and proper hand washing throughout camp.
- Food Service staff will continue following local health recommendations to minimize risk of exposure by utilizing sneeze guards.
- Ensure staff stay home or are sent home if they feel any Covid-19 symptoms.
- Provide an isolation location for any guest showing symptoms and until transportation is available. This location will then be thoroughly cleaned and sanitized before reopened.
- Provide PPE equipment for staff as needed and required by health authorities.
- Require more from guests:
  - We request all group leaders perform a health check on all guests within 24 hours of arrival, ask all guests with symptoms to stay home and sign a group health and wellness form upon arrival with their updated roster stating they've done so.
  - For groups coming from multiple locations, a health screening including a fever check may be completed as each guest arrives.
  - Leaders will be asked to promptly communicate with staff if a member of their group develops Covid-19 related symptoms. While in camp, the group leader will relocate effected individual to our isolation room and coordinate transportation for that guest to their home or hospital.

#### We're promoting social distancing by:

- REDUCING SEATING CAPACITY IN THE DINING HALL AND ADD SPLIT MEAL TIMES AS NEEDED
- LIMIT LODGING CAPACITIES AND USE SIGNS FOR WHICH BEDS ARE TO BE LEFT VACANT
- LIMIT MEETING ROOM CAPACITIES BASED ON CURRENT SOCIAL DISTANCING STANDARDS
- ADDING SAFEGUARDS AND PRECAUTIONS TO AVAILABLE RECREATION
- ENCOURAGE ROTATIONS FOR RECREATION WITH LIMITS OF GUESTS PHYSICALLY AT EACH LOCATION.

Spring cleaning at Whispering Winds as we prepare for opening day!
